Multiple-Choice Surveys: Summarize Counts

To summarize counts over multiple sections, you need to extract the number from the text in cell A2.

To do this, use the Excel function in cell B2:

	A	B	C
1	# Respondents	#	Pct
2	16 respondents	16	46%
3	=NUMBERVALUE(LEFT(A2, FIND(" ", A2)))		

Essay Surveys: Copy to Excel. Select "Student Analysis"

The screenshot displays the Canvas interface for a quiz. The top section, titled "Quiz Summary", includes a "Section Filter" dropdown and two buttons: "Student Analysis" (circled in black) and "Item Analysis". Below this, five statistics are listed: Average Score (100%), High Score (100%), Low Score (100%), Standard Deviation (0), and Average Time (03:12). A large empty chart area is present below the statistics. A black tooltip box with the text "Report is being generated... Cancel" is positioned over the "Student Analysis" button. Below the chart, a horizontal axis shows percentages from 0% to 100% in 10% increments. The bottom section, titled "Question Breakdown", also features a "Section Filter" dropdown and "Student Analysis" and "Item Analysis" buttons. A black tooltip box with the text "Generated: 5:20am" is positioned over the "Student Analysis" button. At the bottom left, it says "Attempts: 38 out of 38" and at the bottom right, there is a red "-0".

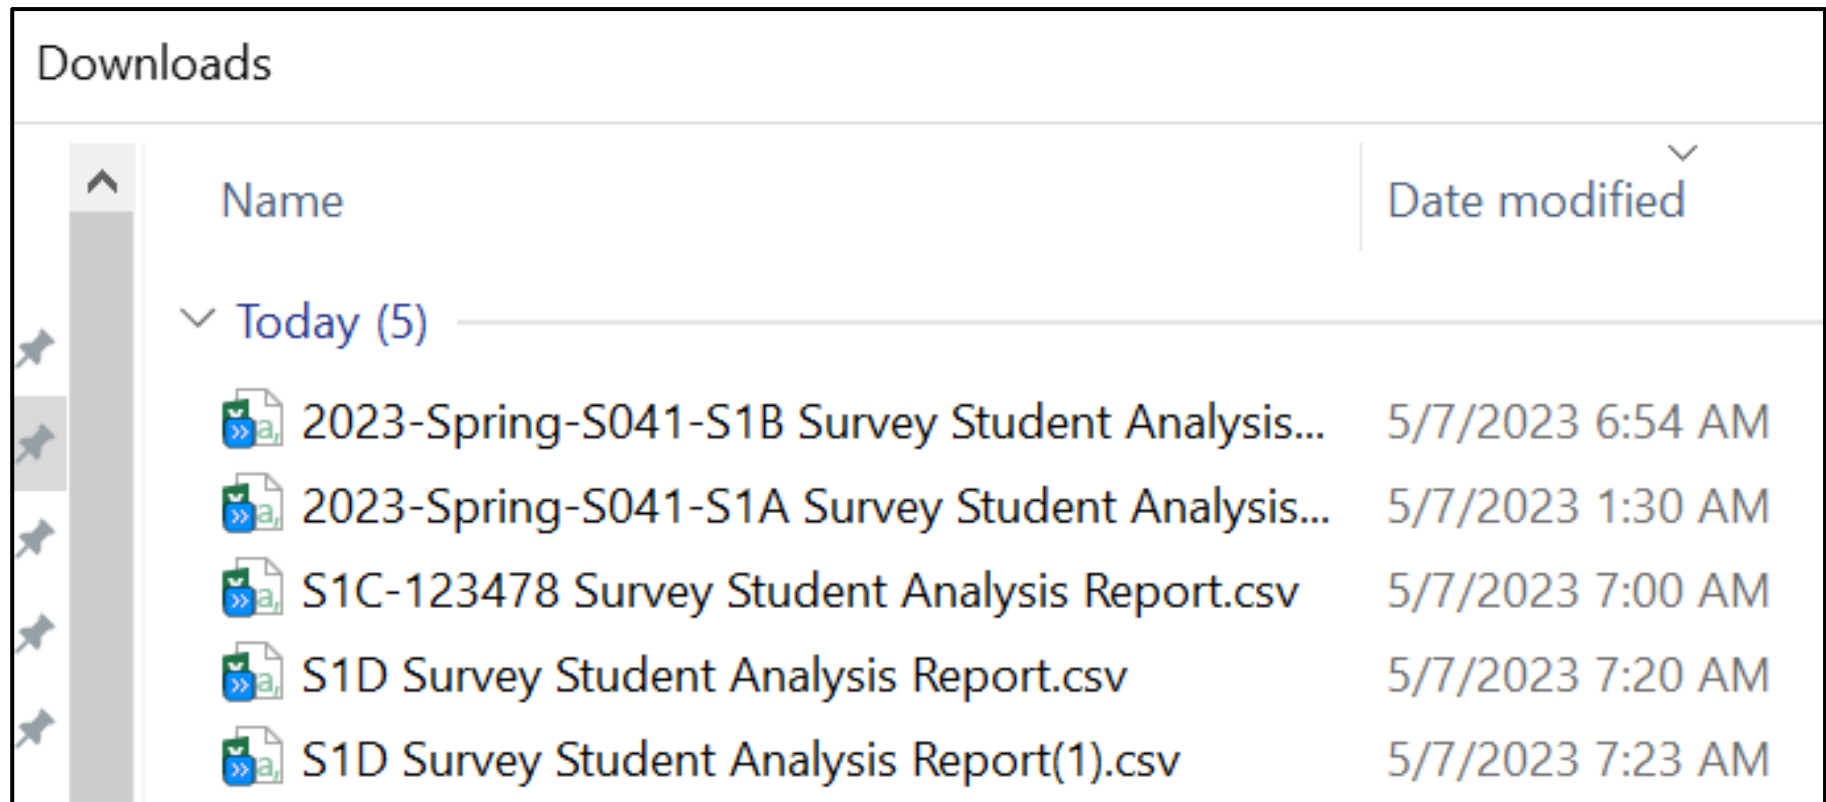

Result of Successful Download

The screenshot displays a list of four CSV files. The first file, 'S1D Survey Student Analysis Report.csv', is highlighted with a black oval. A tooltip for this file shows the filename 'S1D Survey Student Analysis Report.csv'. The other files are 'S1C-123478 Survey Student Analysis Report.csv' (Completed — 57.1 KB), 'S1B Survey Student Analysis Report.csv' (File moved or missing), and 'S1A Survey Student Analysis Report.csv' (File moved or missing). The interface includes file icons, status indicators, and a folder icon.

File Name	Status	Size
S1D Survey Student Analysis Report.csv	Open File	
S1C-123478 Survey Student Analysis Report.csv	Completed	57.1 KB
S1B Survey Student Analysis Report.csv	File moved or missing	
S1A Survey Student Analysis Report.csv	File moved or missing	

Go to Downloads: Rename, Copy/Paste & Save

Rename as needed. Cut and paste into permanent storage.
Open and save as *.xlsx file.

The screenshot shows the Windows 'Downloads' folder. It contains a list of five files downloaded today, all with CSV file extensions. The files are sorted by date and time. The first two files have truncated names, while the last three have full names.

Name	Date modified
Today (5)	
2023-Spring-S041-S1B Survey Student Analysis...	5/7/2023 6:54 AM
