ABOUT

My focus is statistical literacy: thinking critically about everyday statistics as evidence. I research both the statistical and linguistic aspects. I view statistical literacy as an essential component of a good general education and a bridge to research statistics.

Schild's most-cited articles involving Statistical Literacy:

- 30 citations 2004 *IASSIST*: [Information Literacy, Statistical Literacy and Data Literacy](#)
- 23 citations 2004 *IASE*: [Statistical Literacy Curriculum Design](#)
- 15 citations 2004 *AAC&U Peer Review*: [Statistical Literacy and Liberal Education at Augsburg College](#)
- 14 citations 2006 *ICOTS-7*: [Statistical literacy survey analysis](#)
- 13 citations 1999 *ASA Proceedings the Staticatal Education*: [Simpson's Paradox & Cornfield's conditions](#)
- 11 citations 1999 *APDU*: [Statistical literacy: Thinking critically about statistics](#)
- 8 citations 2004 *AERA*: [Frequency of Simpson's Paradox in NAEP Data](#)
- 7 citations 1996 *ASA Proceedings Section Statistical Education*: [Bayesian inference in hypothesis testing](#)
- 6 citations 2010 *Assessment Methods in Statistical Education*: [Assessing Statistical Literacy: Take Care](#)
- 6 citations 2008 *ASA Proceedings of the Section on Statistical Education*: [Numbers in the News: A Survey](#)
- 6 citations 2005 *ISI Conference Proceedings*: [Statistical Prevarication: Telling Half-Truths using Statistics](#)
- 5 citations 2006 *Stats Magazine*: [Understanding Confounding from Lurking Variables using Graphs](#)
- 5 citations 1996 *ASA Proceedings Section on Statistical Education*: [Interpreting Statistical Confidence](#)
- 4 citations 2008 *MAA Calculation vs. Context*: [Q/L and School Mathematics: Percentages and Fractions](#)
- 4 citations 2006 *ASA Proceedings Section Statitistical Education*: [Percentage Graphs in USA Today](#)
- 4 citations 2007 *IASE*: [Statistical Literacy: Factual Assessment to Support Hypothetical Thinking](#)
- 3 citations 2011 *Statistical Journal of the IAOS*: [Statistical literacy: A new mission for data producers](#)

Week ending May 29, 2016: "With 26 [RG] reads, you were the most read author from your institution."
